

Hands-on Qt Quick and QML

A practical approach to modern application design

Schedule

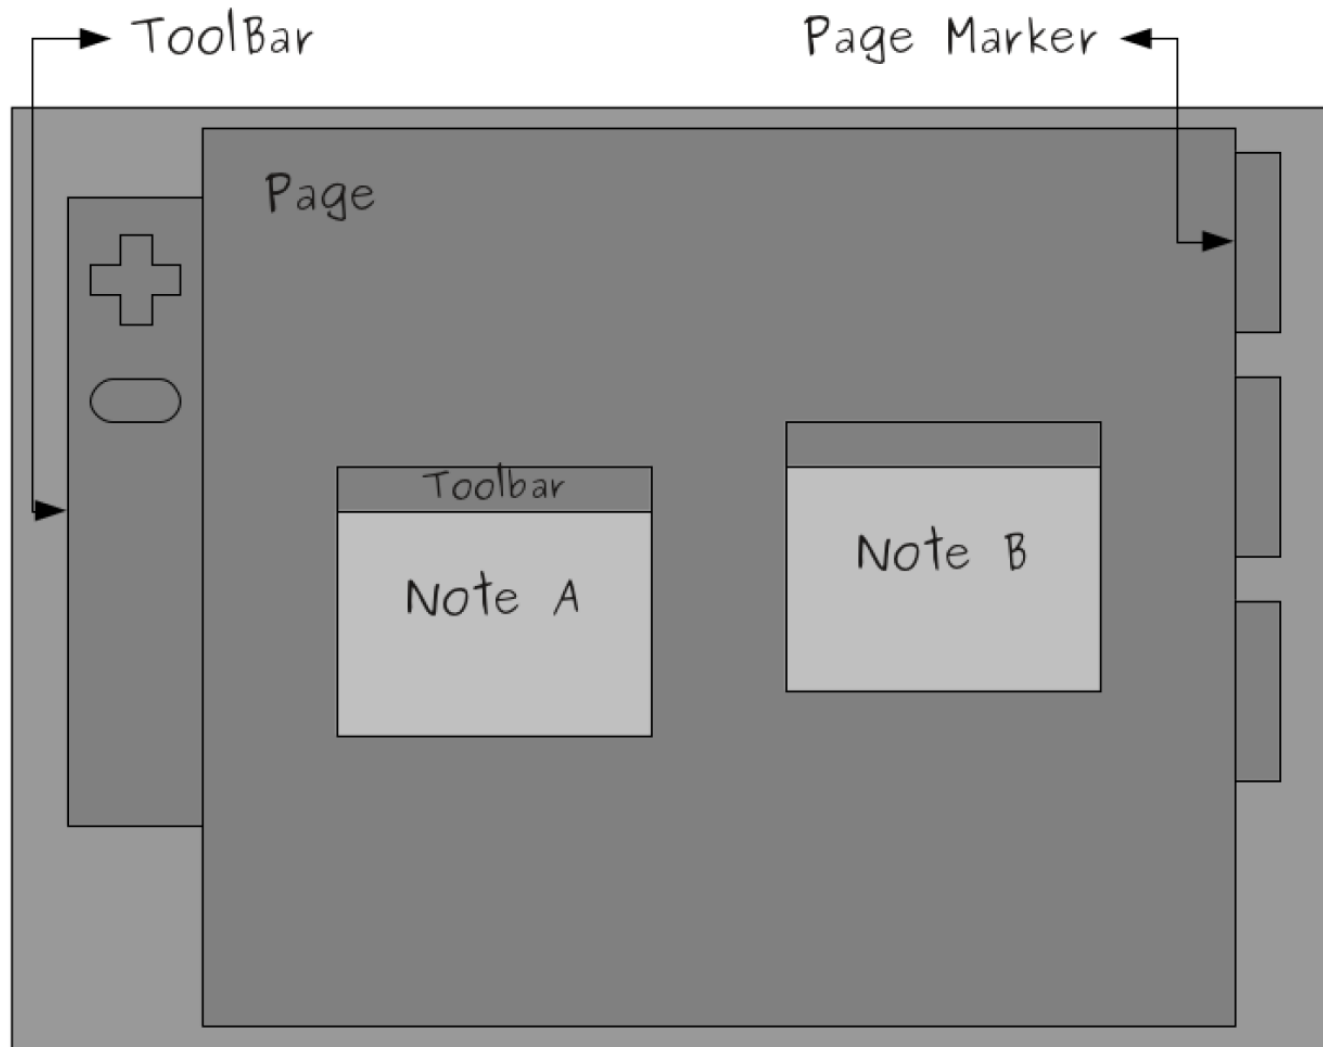

- NoteApp
- Design Strategy
- Live NoteApp development with Qt Creator
- Lessons Learned

NoteApp

Source: [Digia, Qt Learning](#)

Mockup for NoteApp

Design Strategy

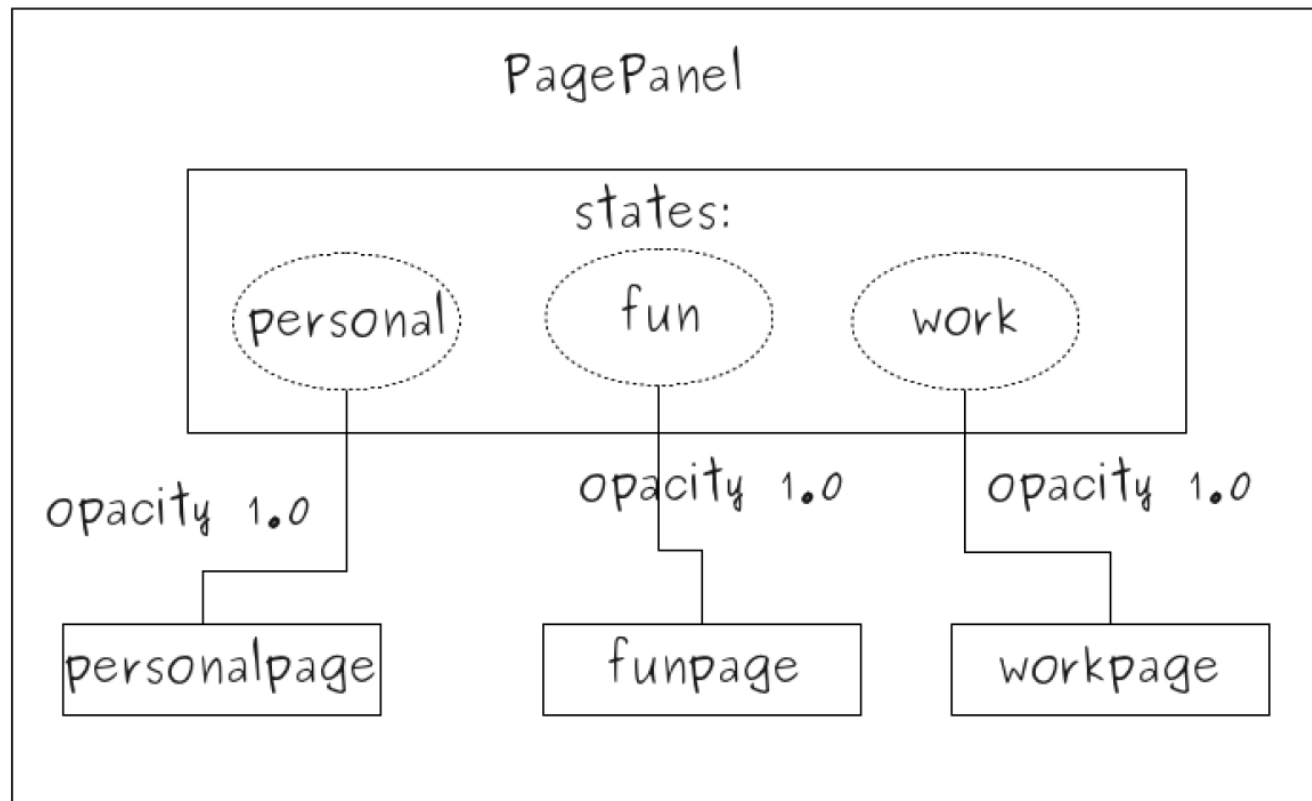

- Prototyping and Initial Design
- Implementing the UI and Adding Functionality
- Managing QML Objects Dynamically
- Enhancing the Look and Feel
- Deploying the Application

Prototype for NoteApp

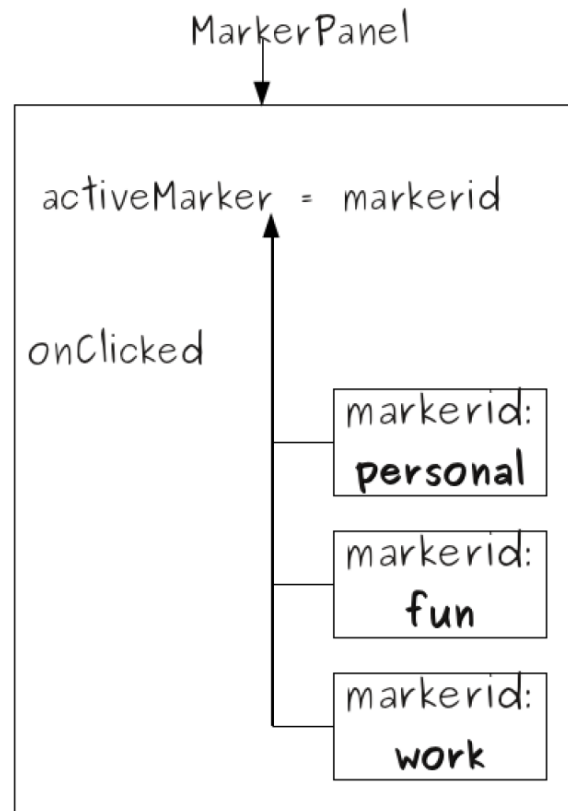

Live NoteApp development with Qt Creator

Implementation of PagePanel

Implementation of MarkerPanel

Lessons Learned

- Prototyping
- Creation of new QML Components
- Use of QML Layout items
- Use of States
- Use of Images and Backgrounds

Danke!
